

HİCRET UYAR

Flutter Mobile Developer | iOS & Android

+90 536 297 66 32 • hicretuyarinfo@gmail.com • Muğla, Türkiye

Portfolio hicretay.github.io GitHub github.com/hicretay LinkedIn linkedin.com/in/hicret-ay

PROFESSIONAL SUMMARY

Flutter developer with 5+ years building cross-platform mobile apps for international companies. Experienced across the full mobile lifecycle: REST/GraphQL API integration, state management (BLoC, Riverpod, Provider, GetX), Clean Architecture, Firebase, automated testing, and App Store / Play Store publishing. Native iOS (Swift) and Android (Kotlin/Java) knowledge, plus backend experience with ASP.NET Core and PHP/Laravel. Comfortable with CI/CD, performance optimization, and remote agile teams.

EXPERIENCE

Mobile Application Developer — Rename Soft

January 2026 – Present · Antalya, Türkiye · Remote, Contract

- Delivered the Bidmay online auction marketplace end-to-end — from UI/UX design through development to App Store and Play Store release.
- Built a full payment stack — iyzico, Halkbank Virtual POS (VPOS) and EsnekPOS with 3D Secure (3DS), WebView-based checkout, escrow payments, and polling-based status verification.
- Added subscription and credit-package purchases; implemented push notifications, deep linking, and REST APIs.

Mobile Developer (Freelance (1 yr) → Full-Time) — Tutus Media GmbH

August 2023 – October 2026 · 3 yrs 3 mos · Obertshausen, Germany · Remote

- Built and deployed Flutter apps for Morgenmarkt, a German online-supermarket delivery service, across iOS and Android.
- Integrated checkout with Stripe, PayPal and Klarna, plus RESTful APIs and responsive UI designs.
- Optimized performance, managed store releases, and shipped new features on schedule.

Flutter Developer — Sambapos Software

January 2022 – July 2024 · 2 yrs 7 mos · İstanbul, Türkiye · Remote

- Built Jetrik, a restaurant automation platform for the US and international markets — a multi-country, multi-language system covering the full flow from the order-taking app to the admin dashboard.
- Turned Figma designs into production Flutter UI; integrated REST APIs, Apple Pay and Google Pay, and managed state with Riverpod and Provider.
- Implemented multi-language localization (i18n), set up Firebase Analytics/Performance monitoring, and handled error analysis and testing.

Junior Software Developer — AE Code Technology

February 2021 – January 2022 · 1 yr · Konya, Türkiye · On-site

- Developed mobile apps in Flutter and web APIs in ASP.NET Core, with Firebase and SQLite for storage.
- Shipped three production apps: Estetik Vitriini, Genç Takım, and Envoy Şoför.

TECHNICAL SKILLS

Languages & Frameworks: Flutter, Dart, Swift, Kotlin, Java, C#, PHP

Architecture & State: Clean Architecture, MVVM, SOLID, Dependency Injection (GetIt), Design Patterns, BLoC/Cubit, Riverpod, Provider, GetX
UI / UX: Responsive & Adaptive UI, Custom Widgets, Animations, Material & Cupertino, RTL support, Figma-to-Flutter

APIs & Networking: RESTful API, GraphQL, Dio/Retrofit, WebSockets, JSON Serialization, Deep Linking

Data & Firebase: SQLite, Hive, Secure Storage, MS SQL, MySQL; Firebase (Firestore, Auth, Cloud Functions, Storage, FCM, Crashlytics, Analytics, Remote Config)

Payments & Monetization: In-app purchases & subscriptions, 3D Secure (3DS), Stripe, PayPal, Klarna, iyzico, EsnekPOS, Halkbank Virtual POS, Apple Pay, Google Pay, Escrow

Native, i18n & Notifications: Platform/Method Channels, Flutter Flavors (multi-env), Google Maps & Geolocation, Multi-language (i18n/i10n), Push & Local Notifications

Backend, Testing & CI/CD: ASP.NET Core, PHP/Laravel; Unit, Widget & Integration Testing, Flutter DevTools; Git, GitHub Actions, Fastlane, Codemagic, App Store Connect, Play Console, Agile/Scrum, Performance Optimization

FEATURED PROJECTS

Morgenmarkt — German online-supermarket delivery (iOS & Android) [App Store](#) · [Google Play](#)

Morgenmarkt B2B — B2B ordering app for Morgenmarkt [App Store](#) · [Google Play](#)

Bidmay — Online auction & bidding marketplace [App Store](#) · [Google Play](#)

Poteysa — Request-gathering & quotation platform [App Store](#) · [Google Play](#)

Acar Company — Workforce shift management & tracking for agriculture [App Store](#) · [Google Play](#)

What am I? — Guessing riddle game (open source) [Google Play](#) · [GitHub](#)

Positive Vibes — Daily affirmations & motivation app [Google Play](#)

EDUCATION & LANGUAGES

B.Sc. Computer Engineering — Selçuk University, 2019–2022 (GPA 3.5/4.0)

Languages: Turkish (Native), English (Professional), German (Basic)
